

ELECTRIFY NOW – ACCELERATING THE TRANSITION TO CLEAN ENERGY

Speaker - Brian Stewart - Brian is a retired Vice President of Sustainable Innovation at Nike Inc. and cofounder of **Electrify Now**. He is active in promoting technologies, education, building codes and policy to deliver low carbon homes and buildings.

At Nike, he had multiple leadership roles in product design and product creation culminating in several years driving the sustainability agenda. **Electrify Now** is a volunteer organization focused on accelerating the transition to a clean energy economy.

Presentation - Transition to a Clean Energy Economy. The presentation includes information on how all of us can take important actions in our own lives to accelerate the transition of our energy systems away from fossil fuels and toward clean renewable energy. How we spend our home energy dollars has a profound influence on our own personal carbon emissions, but also how quickly our energy systems will transform to more sustainable solutions. For example, our furnaces produce almost as many carbon emissions as our cars.
